

I cannot believe that the FCC should be interested in limiting the radio connections that I choose, in this instance XM radio - far be it from me to try to limit other people's listening habits and I do not want the government or any of its committees limiting my listening. While I may not agree to all opinions expressed by various radio programs, I do believe those opinions should be allowed on the various radio stations. DO NOT TRY TO LIMIT MY CHOICES VIA THE RADIO OUTLETS. Sincerely, Mrs. Jacky Dodd, Mount Airy, NC
